

### ACCESS TILE® TACTILE SYSTEMS

Access Tile® Tactile Systems is a market leader in detectable warning tiles for the visually impaired and offers both surface applied or cast-in-place products.

- Access Tile® is available in 9 standard colors and 5 standard sizes.
- The Access Tile® cast-in-place warning tile is replaceable in the event of extraordinary damage.
- The Diamond Grip™ Micro Prism surface provides an enhanced anti-slip surface.
- Great Plains inventories a variety of options with others available on special order.
